

Seeing the Light: Understanding Optics Without the Mathematics, Richard H. Cartier, Richard Cartier, 2004, 0973531614, 9780973531619, 324 pages. .

DOWNLOAD [HERE](#)

Introduction to Geometrical Optics , Milton Katz, Jan 1, 2002, Medical, 313 pages. This book is the culmination of twenty-five years of teaching Geometrical Optics. The volume is organised such that the single spherical refracting surface is the basic optical

Air-cooled Heat Exchangers and Cooling Towers, Volume 1 , Detlev G. Krüger, 2004, Technology & Engineering, 502 pages. This new text represents the most detailed and comprehensive book presenting modern practice and theory relevant to the thermal-flow performance evaluation, design, and

Professional Jewellery Appraising Jewellery Valuation, Philosophy and Practice, Richard H. Cartier, 2004, Reference, 210 pages. .

The Basics of Spectroscopy , David Warren Ball, 2001, Technology & Engineering, 122 pages. Spectroscopy, the study of matter using electromagnetic radiation, and its applications as a scientific tool are the focus of this tutorial. Topics covered include the

Feynman's tips on physics a problem-solving supplement to the Feynman lectures on physics, Richard Phillips Feynman, Michael A. Gottlieb, Ralph Leighton, Matthew Linzee Sands, Robert B. Leighton, Rochus Vogt, 2006, Science, 162 pages. This new volume contains four previously unpublished lectures that Feynman gave to students preparing for exams. With characteristic flair, insight and humor, Feynman discusses

Photonics Essentials , T. P. Pearsall, 2003, Technology & Engineering, 284 pages. SHEDDING LIGHT ON THE SUBJECT This unique new book teaches photonics-- electronic devices that manage light and electricity-- through hands-on measurement techniques common to

Spectroscopic Measurement An Introduction to the Fundamentals, Mark A. Linne, 2002, Science, 414 pages. Electromagnetism, quantum mechanics, statistical mechanics, molecular spectroscopy, optics and radiation form the foundations of the field. On top of these rest the techniques

Alice's Adventures in Water-land , Ben-naim Arie & Ben-naim Roberta, 2011, NATURE, 146 pages. This highly illustrated book describes the properties of liquid water and the relevance of these properties to life, in a way that makes the content accessible to anyone. It

Feynman'S Tips On Physics: A Problem-Solving Supplement To The Feynman Lectures On Physics , Feynman Richard P., Sep 1, 2008, Physics, 76 pages. .

Optics , Eugene Hecht, Sep 1, 2008, Light, 650 pages. .

Turning the World Inside Out and 174 Other Simple Physics Demonstrations , Robert Ehrlich, 1990, Science, 216 pages. Presents a collection of physics demonstrations that illustrate key concepts using easily accessible materials, with information providing a theoretical background for each
